

7 May 2024

Dear Families

Northern Powergrid are looking for 20 young people aged 14-19 who are passionate about the future of energy, diversity and inclusion, careers in STEM, and who also want to get their voices heard.

Being part of the Youth Insights Panel is great experience to expand networks and develop skills such as teamwork, leadership and communication.

In return, they ask young people to commit to five online sessions (outside of education hours).

If they are interested, please ask them to complete the application form using the link <https://ow.ly/SfFC50RqQHv> by Friday 10 May.

Yours faithfully

J Smith
