

# Enrichment

Integrity | Resilience | Respect

# What is Enrichment?

Enrichment at DUA is the many things you can choose to do beyond your academic pursuits and the typical requirements of your life in school.

Education at DUA is more than just mastery of your subjects in standard lesson time - it's also about activities that extend your learning through new experiences and opportunities.

Enrichment links closely with our value of respect. Here at DUA, we respect ourselves as well as each other. Showing respect for yourself also means not allowing valuable opportunities to pass us by that could help us build essential skills that will enable us to reach university or a real alternative and ultimately play a role in living happy and purposeful lives.

# Year 9 club options

## Year 9 Club Options
